

Oluwamayomikun Odukoya

Flutter Developer

Self-taught flutter developer looking for internship and entry-level roles at fast growing startups and established companies migrating their code base to flutter. I am excited about learning and contributing to the growth of an organization through innovative solutions and cutting edge technologies.

EDUCATION

Study Program

University of Lagos

11/2015 - 11/2021

Courses

- Petroleum and Gas Engineering

SKILLS

Frontend Development

Mobile App Development

User Interface Design

Cross-Platform Development

Firebase

SQL/Database Management

SOLID Principles

KISS/DRY Design Patterns

PERSONAL PROJECTS

Amazon Clone (02/2023 - 02/2023)

- Built a simple p2p e-commerce site. Used Firebase for the backend handling of the database, authentication and storage.

Instagram Clone (02/2023 - 02/2023)

- Built a stripped down Instagram clone. Used Firebase for the backend handling of the database, authentication and storage.

Android Paint Application (06/2022 - 06/2022)

- Built a very simple paint app in Kotlin. It is similar to a stripped down Microsoft Paint.

Flash Chat

- Built as part of the London App Brewery's curriculum to acquaint developers with Firebase and Flutter StreamBuilders.
